<p>5</p>	<p>Draft response: National Infrastructure Commission</p> <p>Welsh Government had sought responses to a consultation on a National Infrastructure Commission by 7th January 2017. A draft GMW Partnership response had been developed by the Partnership’s Infrastructure and Connectivity Working Group and presented for discussion.</p> <p>Councillor Tony Thomas raised concerns over the practicality of the response to Question 3. Following discussion it was agreed to revise the response to Question 3 to read as;</p> <p><i>‘We believe the Commission should advise on future delivery of programmes and work. In addition to the significant infrastructure proposals for Wales planned for the next 10 years, in the immediate future we will see the UK’s exit from the European Union and, as such, it is important that the decisions we are currently aiming to implement are sense checked and properly assessed against the rapidly changing landscape in Wales. This will ensure Wales can achieve the best possible economic outcomes for its regions and communities.’</i></p> <p>The Partnership agreed that the draft response be submitted subject to the above amendment.</p>	 <p>5.Covering report and recommendation NICA</p>
